

Dear BCCR community member,

BCCR takes the safety and well-being of our members, event guests, and the larger construction community very seriously. Therefore, due to recent global events surrounding COVID-19, and in response to the direction set out by [BC Health Officials](#) and the [Public Health Agency of Canada](#), we have made the decision to postpone upcoming scheduled events through to the end of April 2020.

March 19, 2020 - Keep Calm and Carry On: BC Prospects and Economic Outlook in Uncertain Times – This event, featuring Ken Peacock and sponsored by PWC, was scheduled to take place Thursday March 19. Registration has been suspended and the event postponed. Anyone holding a ticket is welcome to either request a full refund or apply the ticket to a future event. We will work with the speaker, sponsor and event venue to determine when the event can be rescheduled. A message regarding refund requests has already been sent to all registrants. If you registered and did not receive this message, please contact [Hilary Pritchett](#) for assistance.

April 16, 2020 – AGM/TransLink – This event, including our AGM and featuring TransLink, has not been opened for registration and has been postponed. We are exploring whether the AGM portion of this event will be moved to a virtual forum or if we will reschedule the full event. We will provide and update in the near future.

We are also taking measures to ensure our Board and Sub-Committee members are safe, including hosting online meetings until further notice.

If you have any questions or concerns please feel free to contact our President, [Jesse Unke](#), or our Administrative Consultant, [Hilary Pritchett](#). Thank you for your support and we look forward to seeing you at a future event.

Regards,

Jesse Unke
President
