

Re: BCCR COVID-19 Update - April 6, 2020

Dear Members,

In these unprecedented times we are all coming to terms with a new normal. We are learning to manage remote and distributed teams and practice social distancing in our homes and communities, and many of us are facing the challenges of maintaining the health and safety of workers on construction sites. The BCCR is committed to its members and to serving as a forum for sharing experiences, ideas and knowledge.

We will continue to support our members and remain committed to delivering high-quality content, networking opportunities, and opportunities for roundtable discussions and collaboration. The results of our recent Membership Survey confirmed the importance of these aspects of our mission and we intend to use virtual means to continue to connect with you. In the coming weeks and months, we will provide a series of webinars, on-line networking events, and opportunities to share ideas and collaborate in small group settings, all virtually and safely. We look forward to sharing details of these events with you very soon.

We encourage members to visit our website (www.bccr.net) and our LinkedIn page (www.linkedin.com/company/british-columbia-construction-roundtable) for general information and resources related to COVID-19. We are in the process of adding a page to our website that will be dedicated to providing COVID-19 resources; below are some of the resources you will start to see:

BCBC/VBoT BC COVID-19 Cabinet

BCCR has joined the British Columbia business community via the British Columbia Business Council and Vancouver Board of Trade's COVID-19 Cabinet – a group comprised of representatives from all industries in BC to provide guidance while addressing the impacts on our economy in these uncertain times.

- British Columbia Business Council (BCBC): <https://bcbc.com/advocacy/covid-19>
- Vancouver Board of Trade (VBoT): <https://www.boardoftrade.com/news/50-news/2020/1775-member-update-covid-19-business-resources>

Industry Updates and Resources

We will continue to provide updates, news and resources relevant to the construction industry via our LinkedIn page/website. Please feel free to share resources with myself and/or our Administrative Consultant, Hilary Pritchett, that you think will be valuable to our membership. www.linkedin.com/company/british-columbia-construction-roundtable

Industry Feedback

BCCR is your community and we are here to help. Please let us know how the COVID-19 pandemic is impacting your business and how we can help. If there is a training or webinar topic you'd like to see us present, please let us know. [Submit Feedback to admin@bccr.net](mailto:admin@bccr.net)

We also encourage you to contact myself and/or Hilary, and any of our Board Members if you need information or have a suggestion that you think would be beneficial to BCCR membership or the construction industry at large. You can find all of our contact details through this link: <http://bccr.net/directors/> or feel free to email myself at jesse.unke@ramconsulting.com.

Please contact us if you have a specific need, to stay in touch, and check our LinkedIn page/website for regular updates. We will come through this stronger together and we look forward to connecting with you over the coming months and welcoming you back to one of our future events as soon as we can safely do so.

Best,

Jesse Unke
President, BCCR
